

VI. Integrated Plan

A detailed description of the Integrated Plan is located in the *Draft Project Definition Report* submitted to the Federal Aviation Administration (FAA) for review and comment in January 2003. The Project Definition Report presents information on the plan as submitted to the FAA in the Airport Layout Plans Package. Included is information on the Airfield Plan, Terminal Plan, South Airfield Facilities, North Airfield Facilities, Landside and Airport Access, Land Acquisition, Phasing Plan, Additional Capabilities, and Deviations from Standards. **Exhibit VI-1** depicts the integrated plan as presented on the Future Airport Layout Plan.
